Mètres carrés: 145
Mètres carrés utiles: 130

description

This bright and beautiful villa is surrounded by manicured gardens and swimming pools in the urbanization Monte Biarritz, located 15 minutes walk from the great beaches between Marbella and Estepona.

The villa consists of two floors, a first floor distributed in a spacious living room with fireplace and access to the garden, kitchen and bathroom. The upper floor consists of three bedrooms with two bathrooms and terrace, has a communal parking space included in the price.

The property is in good condition although it has different possibilities for renovation and expansion, you can extend the living room by closing part of the private garden to prolong the development of the staircase and get a studio with bathroom on the lower deck, as seen in the reform project that we publish.

Regarding its location it is located in a privileged environment surrounded by golf courses, flanked on the north by the Sierra de las Nieves and on the south by the beach, it is less than 10 min. by car from Marbella and Estepona, so you have around you all the services you can imagine, restaurants, supermarkets, hospitals, schools. The urbanization Monte Biarritz has a wide variety of services that you can enjoy without using your vehicle, such as supermarkets, bars, restaurants, pharmacy, veterinary, etc..

In short, a wonderful opportunity to enjoy a practical and beautiful home located in an urbanization with good landscaping and large gardens very well maintained just 15 min. walking from the beach and 10 min. by car from Marbella.
